farnesene (EBC 7.12)	< 3
linalool (EBC 7.12; mg/100g)	11
linalool: α	1,4

Aromatic impressions of the raw hops

Aroma in the beer

The bitterness of beers brewed with the variety Opal is not too strong, with pronounced harmoniousness. A virtually consistent development of all aroma impressions arises in terms of smell, whereas the citrusy note is expressed somewhat weaker in the taste.
